SUMMARY

Innovative and collaborative software developer with 2+ years of experience building scalable applications and solving complex business problems.

EDUCATION

IT University

BS in Biology and IT

Lucknow, IN

Aug 2016 – May 2021

TECHNICAL SKILLS

Language: Python, Flutter-Dart, JavaScript, SQL, Java, C, C++, R

Developer Tools: VS Code, IntelliJ, Android Studio, Visual Studio, Unity Engine, n8n, Databricks, Snowflake, RShiny

Technologies/Frameworks: Git, NodeJS, Flutter, React, ExpressJS, MongoDB, Redis, Kafka

EXPERIENCE

caseFit Technologies

Sep 2021- June 2023

- Owned end-to-end development of core caseFit services (mobile + backend), delivering production-ready features with high availability (99%+) and reducing user-visible latency by **~75%** through optimized API design and data flow architecture.
- Designed and implemented scalable backend services using FastAPI and PostgreSQL, reducing query execution time by **3×** and improving system throughput for consultation requests by **40%**.
- Collaborated directly with product stakeholders on requirements, UX design, and release planning, enabling a functioning MVP in under 8 weeks while maintaining code quality and operational stability.

PROJECTS

All Projects Showcased Here, Check Out [🔗](#)

Notecraft-AI [🔗](#) | ExpressJS, Web-Sockets, React, AWS, Llama-3, MongoDB, Tailwind CSS, CI/CD, Git

- Conceptualized and engineered an AI-integrated Note Taking and To-Do Planner App. Allowing users to create and share notes with **Realtime Chat, Collaboration and Updates**.
- Leverages several **AWS services** like Lambda, API-Gateways, allowing users to run code in **5+ languages** directly on the platform and get output within 5 second.

Cancer Gene Detection [🔗](#) | Python, R, Jupyter Notebook

- Reduced dimension from more than 20K features to 500 features (99.7% reduction).
- Apply multiple clustering multiple algorithms in principle components in order to cluster different patients.
- Validated clusters with original label present.

ACHIEVEMENTS

- 2nd Position in college **Hackathon**
- 5+ Games/Apps** Published On **Google Play** With 1000+ Users
- Developed Tech-Fest **adVITYa** website, serving **15,000+ users**
- First Runner-up in AI-Buildathon, Securing an internship
- Runner-up in IT Unplugged'20 Hackathon
- Cleared Multiple Skill Assessment Certification Exams on HackerRank and CodinGames

CO-CURRICULAR

- Lead Multiple Teams As The President Of a Top Technical Club (iOS Club)
- Got Recognition From Hon. Assistant Vice President Ma'am For Work Towards University And Club
